- Roku Indoor Smart Plug SE

Status light

Power button
What you'll need

- Your smartphone

Let's get started

Scan the QR code below to download the Roku Smart Home app on your smartphone. Sign in with your Roku account or create one.
You'll need

Smartphone & app

Message & data rates may apply.
STEP 2: **Insert plug**

Insert your smart plug into a power outlet. The status light will begin flashing **BLUE** to show it's in pairing mode.

If it's not flashing **BLUE**, press and hold the Power button until it begins to flash.

STEP 3: **Pair to app**

In the Roku Smart Home app, tap the "**+**" button, then "**Add Device**" to find "**Indoor Smart Plug**." Follow the instructions to finish setup.

What's that light mean?

Status Light	State
BLUE - Solid	Connected
BLUE - Slowly flashing	Connecting to Wi-Fi®
BLUE - Quickly flashing	In pairing mode
NO LIGHT	Socket power off

Roku

Use the **Roku Smart Home app** to control your smart plug from anywhere.

FCC WARNING

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference and (2) this device must accept any interference received including interference that may cause undesired operation.

FCC RADIATION EXPOSURE STATEMENT

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed

and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
